In spite of this being a plain color season, though some of the colors are pretty bright, the revival of plaids is apparent. apparent.

will be the greatest lace season which has been known in years. Irish lace will undoubtedly lend.

It is said on authority that white slik linings will again be the thing. White or pale gray is being used to line most of the handsome street coats to be worn in the early fall.

The newest empire costs are not quite as loose and flowing as they have been in the past. The latest idea is to make the lines definitely define the figure. The coats are ample enough, how ever, to be worn over the present style of gowns without crushing them .- New York Post.

THE WRITERS.

Maxim Gorky, the "tramp author," is said to have made \$125,000 in the publishing business with four other Russian authors. Constant activity and contact with

the world seem to be powerless to cure J. M. Barrie of the shyness which is developed the moment he talks with a good looking woman, Mrs. Hugh Fraser, an American wo

man and a sister of F. Marion Crawcame forth into daylight it was noticed ford, who has written several books on Japan, has returned to the Flowery Kingdom to gather material for lectures on the personages and results of the war between Japan and Russia. Paul Bourget's Paris home in the

Rue Barbet-de-Jony is a rallying point of French artistic and literary society during the season, but he spends much of the year at his country place near Hyeres, where he finds the quiet necessary for the production of his remarkably finished work.

THE ROYAL BOX.

The king of Siam is an expert cook. He personally prepares means whenever a state dinner takes place.

The German emperor spends many of his evenings rending books, including novels. He favors the French novclists, especially Ohnet. Often he reads loud to the empress.

Princess Victoria, the unmarried daughter of King Edward and Queen Alexandra, celebrated recently the thirty-seventh anniversary of her birth and doesn't seem to mind telling it either.

The shah of Persia has his own Ideas of fun. At Ostend the other day he cut the string that held a bundred toy balloons a woman was offering for sale. Having laughed heartly at her distress as the balloons rose into the air, the shah paid her for them.

Germany. Germany was formerly called Tronges, from a tribe of the same name, the word signifying "speakers." The Romans called it Germanus, "the land

A NEW DEPARTURE.

"Taking Time by The Forelock."

All observing people must have noticed a growing sentiment in this country in layor of using only put-up foods and medicines of known composition. It is but natural that one should have some interest in the composition of that which he is expected to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the legislatures of many of the States, as also in the Congress of the United States, bills providing for the publication of formula or ingredients on wrappers and tabels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity

and labels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast, and on each bottle wrapper, a full and complete list of all the ingredients entering into his medicines, "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, debilitated, nervous, invalid women. tons of this most valuable root are annually consumed in Doctor Pierce's Laboratory.

From "Organic Medicines," by Grover Coe, M. D., of New York, we extract the following concerning Hydrastis (Golden Seal root), which enters largely, as we have already stated, into the composition of both "Golden Medical Discovery" and "Favorite Prescription." Dr. Coe says: "Hydrastis exercises an especial influence over mucous surfaces. Its action in this respect is so manifest that the indications for its employment cannot be mistaken. (Hence the efficiency of "Golden Medical Discovery," which is rich in Golden Seal root, in all catarrhal affections, no matter in what part of the system located.) Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals. Also in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhœa, and constipation."

Doctor Coe continues: "Hydrastis (Golden Seal root), has been successfully employed in the cure of leucorrhœa. It is of singular efficacy when that complaint is complicated with hepatic (liver) aberration (derangement). Hy-

broken-down, debilitated, nervous, invalid women.

This boid and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Doctor Pierce's medicines and recommending these ingredients for the cure of the ingredients which enter into Doctor Pierce's medicines and recommending these ingredients for the cure of the diseases for which Dr. Pierce's medicines are advised. A copy of this little booklet is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. A request, by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., will bring this little booklet by return post. It tells exactly what ingredients are used in the making of Dr. Pierce's famous medicines.

This striking departure of Dr. Pierce from the usual course pursued by the manufacturers of proprietary medicines, at once takes his medicines out of the class generally known as "patent" or secret medicines, neither of which term is at all applicable to them, as their formula now appears on the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y. It places them in a class all by themselves and as entirely harmless vegetable extracts, made and preserved by the use of glycerine and not with the usually employed in the cure of leucor-rhoza. It is of singular efficacy when thas complaint is complicated with hepatic (liver) aberration (derangement). Hydrastis is also of inestimable value in the treatment of chronic derangements of the liver. It seems to expertise and hepatic (liver) through object in the treatment of chronic derangements of the liver. It seems to exercise an especial influence over the portal vein the treatment of chronic derangements of the liver. It seems to exercise an opposite value in the treatment of chronic derangements of the liver. It seems to exercise an complaint is complicated with hepatic (liver) through object in the liver. It seems to exercise an opposite of the liver. It seems to exercise an opposite of the liver. It seems to exercise an opposite of the liver. It seems to exercise an especial influence over the portal vein the treatment of chronic derangements of the liver. It seems to exercise an o

best, must be continued for considerable periods of time, in order to make the cure permanent.

Many years ago, Dr. Pierce found that chemically pure glycerine, of proper strength, was far better than sugar-coated "Pellets" a dose.
